MARCH AND APRIL, 1848.

PRINCE'S LINNÆAN BOTANIC GARDENS AND NURSERIES.

WM. R. PRINCE & Co., FLUSHING,

WHOLESALE PRICES, TO NURSERYMEN, ETC.

N. B. Fruit Trees will be supplied in quantity at the prices here named, provided not less than five are ordered of any one variety, and not less than 25 to 50 of any one class of Fruit, and some latitude must be allowed to increase or diminish the quantities of some kinds, as may be convenient to us, or a few additional names should be sent of each class of Fruit ordered, with which we may make up the quantity desired in case some of the Kinds happen to be deficient or not of sufficient size. Our stock is so complete, that but little variation will be needed in any case, especially if orders are sent early in the fall, and early in the Spring. The same remarks as to quantities, &c., apply to Grapes, Raspberries, Gooseberries, and Currants.

The choice varieties of **Fruit Trees**, &c, that we supply in the assortments, are of far greater value than those usually sold in quantities, and we send good articles, both as to kinds and size for the price, and not any refuse sorts or mere apologies as to size. We call especial attention to this point, as there is at least 50 per cent difference as to the character and size of trees thus supplied. Of the **Ornamental Trees**, &c. priced by the **100**, it is expected that at least 25 of a kind will be ordered, and of the smallest **Seedling Trees** not less than 100.

We will execute for Nurserymen, any special orders for their customers, and forward the trees to any individual specified, with an unpriced invoice, and a duplicate invoice to the Nurseryman priced as may be agreed upon. All trees are measured from the ground. Nurserymen ought to send their orders early, by which they will prevent disappointment. Payment must be arranged by a draft, or by a satisfactory reference, where the applicant is unknown to us.
